

# PROJECT PATHWAY

www.lamoka.com

## STEP 1

### INTERVIEW

The process begins with an interview between a camper's parents & the pastor of the sending church. During this interview the pastor will give the parents an opportunity to share the needs, character, and desires of their child/camper.

The interview form can be found and submitted online.

## STEP 3

### SERVICE

## STEP 2

### EVALUATION

The leadership staff and the counselors will work together to use the interview form to assist your child/camper with their spiritual growth.

At the end of the week the counselors will fill out and send an evaluation form back to the pastor of the child, which maps out the camper's growth.

03

The final step in the process encourages campers to make the move from camper to staffer in the following way: If a camper participates in at least three years of Project Pathway, they will be paid 10% more if and when they are hired to work as summer staff. Each camper wishing to take advantage of this opportunity should indicate that they have been in the Project Pathway program for at least three years when they apply.
